

SHOTOKAN KARATEDO INTERNATIONAL FEDERATION

Message from Kancho at the Celebration Party

Thank you all for taking time out of your busy schedules, and for traveling great distances, many of you from overseas, to be with us this evening. Following the World Championship in Sydney the year before last, I assumed the position of Kancho. And since that time, I have taught here in Japan and overseas.

During this time, I have been able to sense the love that so many people have for karate-do, and how dedicated everyone is to learn the spirit and techniques.

I have also been able to see how much my father is loved by so many people, and how they have provided support.

For me to follow in my father's footsteps is a heavy responsibility.

For me, there is no other path than this path.

I plan to work harder and train harder than ever before to pursue the true path of karate.

I would like to request your continued support and guidance.

I would like to say once again how happy I am to see so many people here with us this evening.

Thank you very much.

With Best Regards

Kancho Nobuaki Kanazawa
